

POP AND GROW WITH ENVIOTIN

What is Enviotin?

- An easy-to-use organic plant nutrient for home growers specially formulated for flowers and plants, that is trusted and used by growers
- For 4-6" plant pots, our unique all-in-one capsule format only needs to be applied once a month into the soil

Our Difference

Trusted local BC company

Environmentally friendly

A product created and tested by scientists

Certified organic

Cost Savings

- No additional cost for various plant supplements
- Field trials show Enviotin reduces plant loss

All macronutrients and micronutrients in Enviotin are captured from brewery by-products, providing organic and natural plant nutrients

Improve the health of your plants with the inclusion of macro and micronutrients, replacing the need for traditional chemical fertilizers and enriching the use of other organic fertilizers.

Enviotin's macronutrients:

- Primary nutrients: organic nitrogen, phosphorus, and potassium
- Secondary nutrients: organic calcium, magnesium, and sulphur

Enviotin's micronutrients:

- Multiple trace elements (organic zinc, sodium, boron, iron, manganese, copper, and nickel)

With Enviotin

Our peer-reviewed trials with potted plants prove that Enviotin increases the health of plants and reduces plant loss. Plants that were treated monthly with Enviotin saw:

- **25-75%** larger, taller plants
- **Up to 50%** thicker stems, with **25%** more shoots
- **44-100%** larger, greener, and more abundant leaves
- **Up to 36%** more vibrant flowers

TRUSTED BY BURNABY LAKE GREENHOUSES LTD.

FRIENDS AND GROWERS

“We had a wonderful experience with Enviotin. Our geraniums thrived! We began using Enviotin in August, and even by mid-October, they were healthy and blooming. We also used Enviotin for our outdoor herbs and this was the first time all our herbs survived the entire summer. We will certainly continue to use Enviotin for our garden and I highly recommend it to all my friends!”

(Per Koster, Home Grower, British Columbia)

Enviotin is certified as an organic product by OMRI
